## SUMMARY

Bo Shang is a passionate developer of AI to bring positive utility for users. For the ABSOLUTE FIRST TIME EVER, I feel the ability to "manually" code with GenAI eg Cursor or Claude Code so I'm applying for jobs etc. because I feel like I could learn the codebase accurately of any possible need to fulfill, etc.

Honorable and decent people do not place adverse conditions on victims. Bo is the survivor of a malicious plot, developing enough software engineering skills to survive, only to work as an AI Developer and also assisted by AI; I can ask Cursor any questions I don't know about your codebase then also update it with Cursor etc.

Bo Shang assumes that Americans possess sufficient inner decency to not participate in psy ops against him, when he's fully clean of any drugs. The MA government forged Bo's conditions then falsely blamed it on alleged stimulant use.

If Bo is clean of all drugs, then any inner decency would require others who use this drugs rationale to lay off of him.

Under American law, capabilities development is lawful when you do it, but once I get a job I won't have any time or any incentive to myself. ( Currently I suffer attention deficit and dual use development satisfies this required need) (until employment..)

## PROFESSIONAL EXPERIENCE

OpenAI Developer 2021 - Present  
tbd Austin, TX

- I'm going to find a way to build login paid useful app; OPENAI\_API\_KEY does NOT work in open source for users to use...

AI Developer Date period  
ErosolarAI Location

- Developed the first absolutely fully open source code LLM trainer and generator that trained useful ish LLMs on an RTX 4070 mobile; typically LLMs require like a ton of GPU to train.
- Learned general principles of how LLMs are trained, optimized, increase in capabilities, and generation is trivial
- Developed DeepSeek (or other AI providers) Coding Agent CLI, kind of similar to Claude Code and Codex CLI but with a tad of genai trash flare on top

Software Developer 2024 - 2021  
PDFSage Austin, TX

- Developed some trashy GenAI apps to waste my time as an addict of shitty software. Ideally Bo Shang learned useful skills while doing so. Stacks used includes iOS, Android, web, cloud etc.

Poor attempt at CNO engineering 2015 - 2017  
AIWebAssist Austin, TX

- Originally I had conceived of a concept similar to the Atlas Browser by OpenAI, but I wasn't even close to being able to deliver one, or even conceptually think of how.
- Upgraded the original "download twitch" to

## KEY ACHIEVEMENTS

Lost my life in a sea of drug abuse for 8 years  
The State of MA claim that I am psychotic, yet..

Loser who can't handle his credit card bills because he keeps buying drugs #USPS  
dark.fail

ppkf6wkai4fwvzwt4rz645aqd.onion

Can't code for shit and have no interpersonal skills  
Spent all my time in jail or DMH and can't convince any American to openly recognize the truth

Crazy stalker who begs his Mom for cash  
Some MIT bitch erosolar has a 5 year RO on crazy me

PROFESSIONAL EXPERIENCE

Twitch Viewer & CS Student	2013 - 2015
Tufts	Austin, TX
<ul style="list-style-type: none"><li>• While stimulants do stimulate, all of the victim Bo Shang's adverse conditions were actually caused by Computer Network Operations and psy ops.</li><li>• The CNO and psy ops were designed to drive a allegedly to the victim, a pathological belief</li><li>• While falsely believing that he was a psychopath, the victim started a little at developing reverse Computer Network Operations</li><li>• Wrote optimized scripts for data-heavy &amp; processing heavy task automation</li><li>• Spearheaded the revamp of tech stack which resulted in 40% decrease in server costs</li></ul>
